## **DYNAGLASS TIARA 31** SPORTSFISHING TOURNAMENT BOAT

### **SPECIFICATIONS**

This specification is meant to fairly represent what is intended in the Tiara-310. However we reserve the rights to modify, add or delete to this in the best interest of producing the craft to the highest quality.

### **DIMENSIONS AND CAPACITIES**

Name of Vessel	Sierra Sierra
Registration No.	SZ15074C
Year Manufactured	1998
Material	Fiberglass
LOA (with pupit)	9.26m / 30.3 ft
LOA (without pupit)	8.65m / 28.3 ft
Beam	2.86m / 9.4 ft
Transome Height	1.14m / 3.76 ft
Draft	0.4527m / 1.48 ft
Weight Gross Tonnage	1.5 tons
Engine	MerCruiser 270 Inboard Sterndrive
Engine Capacity	300 hp
Fuel Tank Capacity	Diesel 800 ltr
Max. Person Capacity	12 persons
Water tank Capacity	50 litres

### **STANDARD SPECIFICATION**

Fully moulded in glass reinforced polyester (GRP) or (FRP) incorporating a double-skin foam filled construction using HLU- open moulding technique.

### **HULL AND DECK**

The hull which is Dynaglass' own special 'delta-glide' and 'air-lube' design gives both a soft and drag free ride with extremely superb directional stability. GRP lay-up incorporates high strength "combomat" , glass, cloth and high-density core,

longitudinal and transverse stiffening combined with structural bulkhead giving immense strength. Foam filled bulkhead compartments for added safety thus making her virtually unsinkable.

Engine beds and fuel tanks are encapsulated with glass fibre and integral with hull.

Ventilating system is incorporated and positioned to enable air to be drawn down between the hull / deck walls and under floor creating a silencing effect which accounts for the very silent operation of the craft.

Deck lay-up incorporates a combination of coremat and marine ply parquet, reinforcing core stiffening for high strength and rigidity. Deck has integral non-slip surface moulded in and is designed with an efficient self-bailing system. The standard deck layout incorporated centre console and large walk around space with coaming padded sides.

### **WHEELHOUSE**

- Pilot control position at starboard
- Aluminum alloy steering wheel
- Electrical panel 6-gang
- Bilge switch c/w heavy duty bilge pump
- Helm seats
- Grabrail fitted onto top of wheelhouse.
- Overhead lightings.
- Marine toilet / stowage area.
- Arrangements shall be provided for securing of navigation equipment etc
- Roof of Wheelhouse c/w: Mast, navigation lights, airhorn, grap rails.
- Cushion seats c/w storage
- Bollard at Bow
- Removable step.
- Door access to bow.

### **AFT AREA/ENGINE PROPULSION**

- HDPE cleats at rear.
- M27 Delco Voyager Marine Battery.
- Propulsion - diesel.

### **INCLUSIVE**

- Electric anchor windlass at forward
- GPS-Navigator
- ICOM 59 VHT c/w 8ft antennae

**PRICE: S\$140,000 (NEW)**

**ASKING: \$90,000 (USED)**
